# UI Design and Prototyping Report Template

Project Title

1. Introduction

- The purpose of my website is to sell ice cream.
- The tangible values is that people consume quality ice cream quickly.

2. User Interface Design and Prot

235x180

Snow Cream

Order ice cream in Taiwan and you'll get a dish of heavenly, fluffy sweets.

Sorbet

There's no dairy in this fruit-forward frozen treat, making it denser and much richer in taste than traditional ice cream.

Someone famous in Source Title

Granita

Born in Sicily, this icy treat is a blend of sugar, water, and various flavorings from fruit, nuts, and herbs

Gelato

Italian gelato ripples and forms imperfect scoops because it is so much denser than standard American ice cream.

Last updated 3 mins ago

Faloodeh

While this looks like a savory noodle dish, it is, in fact, ice cream from Iran.

Kulfi

Ice cream in India is more like custard than anything else. It's thick and dense and takes longer to melt, which makes it perfect for serving on a stick.

Last updated 3 mins ago

Dondurma

Turkish ice cream is like nothing you've had before. The mixture includes salep flour and mastic, which make it thick and chewy, almost like taffy. But it's still malleable.

Buy

Special title treatment

With supporting text below as a natural lead-in to additional content.

Buy Now

$ 2,00

- Support high demand and e-commerce.
- The justifications are that the site must support a large number of users accessing the page and e-commerce to manage the sale of ice cream.

3. Navigation Structure

- Home > Ice > Buy || Home > Buy

4. References
